Dear «Holsal»

Did you know...it is estimated that today alone, 50 new cases of NTM lung disease will be diagnosed in the United States? Some of these patients are children...we want them to live to be adults. NOW more than ever, NTMir's commitment is essential to moving research forward.

And did you know... that promising research is left unfunded every year due to lack of resources? You can help change that.

Exciting targeted research can make it from the lab to the patient - ***if we help them.*** NTMir's achievements over the years show why every gift you make has an impact of significant proportions.

For 10 years, the mission of NTM Info & Research has been to save and improve lives by providing support for research, education, early detection, and improved treatments.

Each of us has the power to change things for the better.

Your contribution today plays a big part in ensuring better tomorrows for patients suffering with NTM (nontuberculous mycobacterial) lung disease.

Please join me and make a commitment to support NTMir's efforts by making a tax deductible donation today using the enclosed envelope or online at www.ntminfo.org.

Your generosity **will** make a difference.

Thank you!
