NTMIR serves patients and physicians concerned with NTM. As a national organization, it can advance a broad agenda more successfully than individual institutions by the collective constituency of patients and physicians.

The accounting policies that affect the significant elements of NTMIR’s financial statements are summarized below.

(b) Basis of Presentation

NTMIR’s financial statements have been prepared on the accrual basis of accounting and in conformity with the standards promulgated by the American Institute of Certified Public Accountants. The specialized accounting and reporting principles and practices contained in the Audit Guide are preferable accounting practices in accordance with Statement of Financial Accounting Standards Number 117, issued by the Financial Accounting Standards Board.

One of the sources of revenue for the NTMIR consists of contributions from individuals and foundations which, absent a specific restriction, are considered to be available for unrestricted use. Contribution revenue includes only that portion of the contribution that was earned prior to the balance sheet date. All contributions received as of the statement of financial position date which are considered to be applicable to future periods are reflected as deferred revenue on the statement of financial position.

The costs of providing the various programs and other activities have been detailed in the accompanying Statement of Activities and Changes in Net Assets.

Expenses which are associated with a specific program are charged directly to that program. Expenses which benefit more than one program are allocated to the various programs based on the relative costs incurred. Administrative and other support expenses are allocated to the various programs based on each program’s expense.

Donated furniture and equipment with values in excess of $500 represent “in-kind” donations to NTMIR from private organizations and are recognized as support when received. They are valued at fair market value and depreciated using the straight-line method over the estimated useful life of the assets, which is principally five (5) years. Maintenance and repairs are charged to operations as incurred.

(e) **Grants and Contributions**

Grants and contributions are recorded when earned or received by NTMIR and are considered unrestricted as to Board of Director determination of use unless otherwise stated by the donor. Restricted grants, for specifically funded projects, are recognized as support to the extent the resources are utilized for the purposes specified by the donors. Any unexpended funds are recorded as deferred support.
