

In the past two years, we've come to understand just how important connection is, perhaps now more than ever. Our strength has grown by staying connected to one another, to information, to hope.

I am proud and grateful to say that, together, we provided patients and their families with more connections in 2021 than ever before. Your support enabled NTMir to create and expand programs that empower patients with medical information, support groups, coping strategies and hope through increased research.

My stepmom, Fern Leitman, was an NTM patient, a bronchiectasis patient, and a warrior her entire life. She founded NTM Info & Research to give all NTM patients a voice, and it is a fight we are honored to continue on behalf of NTM patients.

Your support of NTM Info & Research means the world to us, and it allows us all to continue the vital work we do every day on behalf of NTM patients. Every time I speak to a patient, I am reminded of just how much our work touches the lives of people affected by NTM.

Please join me in giving to NTMir today – thanks to a generous matching gift, your donation will go twice as far. Every dollar we raise ensures that we are able to continue funding research and providing resources to patients with NTM lung disease, connecting them to a brighter tomorrow.

Gratefully,

Amy Leitman

Research
for a better tomorrow.

Thanks to you, NTM patients have more hope than ever before. In 2021, your contributions enabled NTMir to:

- Launch our new NTM Connect forum for patients
- Support and stimulate the advancement of therapeutics with industry, resulting in more clinical trials than ever before
- Accelerate the development of Patient-Reported Outcomes (PRO) tools to help develop therapeutics specifically addressing patient concerns
- Fund ongoing research for studies on hypertonic saline and biomarkers
- Get more companies focused on NTM and bronchiectasis
